

Dear Staff

The Mission of the Paris Agricultural Society is to promote agriculture and to enrich and educate the community. We feel that a partnership with Community Schools makes perfect sense to accomplish this.

The following is a condensed version of the Junior Exhibitor prize list for the 2018 Paris Fair. Please take a few minutes to look through the list for suggestions for art/writing/creative projects that may coincide with your curriculum over the final months of the school year.

How exciting would it be for your students if they knew that not only will they receive a mark for their work but to also have an opportunity to save the project over the summer and enter it into the Fair for a possible prize!

We have attached a page of notices that you can print and send home with the projects as an explanation to parents – staff will not be responsible for submitting the work to the Fair.

Should you have any questions, please do not hesitate to contact our office. Thank you for your support – Paris Agricultural Society is doing our best to be a part of building special childhood memories.
