- c) Consider accommodation support for those with barriers
- d) Incident Reports **should not be retained at the school level**. OSBIE retains all records through their data base.

5.0 The Ontario School Boards' Insurance Exchange (OSBIE) Incident Reporting

The following are excerpts from the "Claims Handling Procedures: as outlined by OSBIE:

a) Reporting

School Principals and/or site supervisors must complete an "incident" report on any matter which gives rise to injury requiring medical attention or dental attention, to a student or visitor to the Board site. It is in the best interest of School Board personnel to report all incidents requiring medical attention, and any incidents which may lead to a claim so that OSBIE will be able to react to a claim which might be initiated several years after an incident has occurred. Complete documentation will enable OSBIE to defend member boards and provide valid risk management advice to control costs.

b) Investigations

Based on the details provided on the reporting forms to OSBIE by the School Board, the Claims Examiner will determine an appropriate course of action. If the incident has the potential to develop into a serious claim, an adjuster will be appointed to investigate the incident. OSBIE will inform the office of the Superintendent of Business if an investigation is necessary and the office of the Superintendent of Business will then inform the Principal/Supervisor. The Principal/Supervisor should instruct his/her staff to co-operate with OSBIE and its representatives during an investigation and to refrain from providing information to any other parties (except police) not acting on behalf of OSBIE.

c) Legal Notices

Should a principal, teacher, staff member or site supervisor receive any legal communication, he/she must call the office of the Superintendent of Business immediately to advise of the situation. Where the communication is in the form of a lawyer's letter, Statement of Claim or other legal document, the original copy of the document must be delivered to the office of the Superintendent of Business as soon as possible on the day it is received. The Board will forward the material at once to OSBIE who will act to protect the interests of the Board, its employees and of OSBIE itself. Promptness is important in these cases, as there is a limited time period for OSBIE to respond to these documents.

Where the communication is a telephone call or personal visit from a lawyer representing a person(s) who has sustained injury, the principal, teacher, staff member or site supervisor should refrain from discussing details of the incident with the claimants' lawyer as the discussion may jeopardize OSBIE's defense of the liability claim. Refer the lawyer to the School Board contact - the office of the Superintendent of Business.

Should you receive a request for a copy of the incident report, please have the parent/guardian contact the office of the Superintendent of Business where the request will be reviewed to ensure compliance to release information. All persons requesting a copy of an incident report must provide proof of their identity and proof of their relationship to the injured person and must sign a declaration to that effect.

Under no circumstances is Board staff to engage lawyers to defend or represent the Board or its employees in a matter which involves OSBIE. Involvement of a lawyer without instruction from OSBIE may adversely affect the outcome of any claim that is in negotiation.

6.0 Student Accident Insurance

- a) The Board will make available to all students an Accident and Life Insurance Program. Participating in such a program is voluntary and the costs are to be paid by the parents or guardians.
- b) Principals are encouraged to outline the benefits of Student Accident Insurance to parents emphasizing the fact that accidents do happen and that student injuries are not covered by any insurance coverage held by the School Board.
- c) Student Injuries – Community Involvement
Secondary students working on their 40 hours Community Involvement Diploma Requirement are encouraged to seriously consider purchasing a Student Accident Insurance Plan. Should an injury occur to a student while completing the 40 hours Diploma Requirement, there is no insurance coverage for the injury unless the student/parent/guardian has purchased coverage through the Student Accident Insurance program.
- d) Student Injuries – Co-operative Education
Students participating in the Co-operative Education program receive Workplace Safety and Insurance Board (WSIB) coverage through the Ministry of Education or Ministry of Training, Colleges and Universities. If a student who is working on the 40 hours Community Involvement Diploma Requirement is injured during the work program, this WSIB coverage is not available to the student.
