

PHILBERT

Adam Philip VanEvery-Albert

We will remember Phil as the gentle giant with the biggest heart in the world and in the end, it was his heart that took him from this world. He was Mohawk and he was a member of the Turtle Clan.

Phil was an avid computer and car fanatic. He built his first computer when he was twelve and continued to nab computer parts wherever and build machines that would go faster and faster. He had his first job in the computer industry as the tech-guy on the phone for a Waterford internet service provider; he was 15. Later, he worked at a computer store in Brantford putting systems together to meet the requests of customers. In his younger years he received one of the highest marks ever on a Microsoft engineer test. In his twenties, Philbert attended a Native Computer program in Ottawa where he excelled in the work. From there he was chosen to go to South Korea to attend the World Youth Computer Conference. As his last job, he worked as the computer technician at the family-owned business, The Albert Group, in Ohsweken, where he passed away at age 43.

Philbert was interested in and studied many fields including Volkswagens, Audis, Porches, bitcoin, computers, Haudenosaunee history and culture, sovereignty, punk rock and bizarre stories which he thought were really funny.
