October 6, 2020

Greetings Paris Central School Families,

This is an important notice regarding important information for our families who intend on switching to a different learning model.

To prepare for students who are selecting a different learning model than the one they're currently in, it's necessary for parents to declare their intention. The deadline for notifying Grand Erie if you're changing from online to in-class or vice versa is October 13 at 4:00 pm. To make a change, you must notify us by this date or your child will remain in their current learning model.

To change learning models, go to the following website address:

<https://parentdec.granderie.ca/>

Then complete a declaration for each child in your family where a switch in learning modes is requested. Once the declaration is completed, you will receive a notice of confirmation. Please maintain this information. If you are unable to follow the link or do not receive a notice of confirmation please contact the school office only if you wish to change learning modes..

Families of students in self-contained classes wishing to switch learning modes should NOT complete this declaration but should contact their school principal directly.

If there is no communication from you, your child will remain in their current learning mode until the next opportunity to provide a declaration of change.

For parents who have indicated a change, your child is scheduled to begin their new learning model on November 2.

Thank you,

Latha Reuben,  
Principal

*SUCCESS* for Every Student
